with Powertex

WHAT IS POWERTEX?

Powertex Universal Medium (often called just Powertex) is a liquid sculpting medium. It hardens fabric and is a strong adhesive and binder. It's available in 11 colours including transparent.

It is a water-based medium that carries API safety certification.

Powertex create a range of art and craft supplies for mixed media artists and crafters.

WHAT IS IT USED FOR?

Powertex Universal Medium is a versatile product to use in mixed media art and sculpture.

It is a:

- paint
- primer
- glue
- binder for dry textures
- fabric hardener

WHO IS IT FOR?

Powertex products are used by crafters and mixed media artists across the world.

MY TOP TUTOR TIPS

- Powertex will be touch dry in 3 hours and weatherproof in 3 weeks.
- Use with natural materials for best results.
- Use with cotton fabrics, card, wood, metal, cork, glass and polystyrene.
- Powertex does not adhere well to soft plastics but surfaces can be primed with masking tape first.
- Protect your clothes and work surface
- Shake your Powertex well before use

I am a certified Powertex tutor in the UK.
